## SPEAKER BIO

### **AMY NORDRUM**

*Executive Editor, MIT Technology Review*

Amy Nordrum is an executive editor at *MIT Technology Review* based in Boston, MA. She oversees the publication's annual lists of 10 Breakthrough Technologies, 35 Innovators Under 35, and 15 Climate Tech Companies to Watch. Amy previously worked as news manager for IEEE Spectrum. For six years, she was also a regular contributor to the popular radio show Science Friday. Her career mission is to build profitable newsrooms that empower journalists to do their best work. Amy recently completed her MBA at New York University's Stern School of Business. Amy also holds a bachelor's degree in journalism from Ohio University and a master's degree from the Science, Health, and Environmental Reporting Program (SHERP) at New York University.
