SPEAKER BIO

HARRY XU

CEO, Breeze ML AI

As the CEO of BreezeML, a Full Professor of Computer Science at UCLA, and an ACM Distinguished Scientist, Harry has over 20 years of experience in developing and applying cuttingedge techniques for data analytics and artificial intelligence. Harry has led teams that have built next-generation cloud infrastructures, optimizing compilers, and runtime bloat detection tools for large-scale data processing and machine learning pipelines, collaborating with leading industry partners such as Microsoft and IBM. He has also received the prestigious 2018 Dahl-Nygaard Junior Prize for his contributions to the field of object orientation, and published more than 100 papers in top-tier conferences and journals. Harry is passionate about advancing the state of the art in machine learning and computer systems, and mentoring the next generation of researchers and innovators.
