SPEAKER BIO

IVANA FELDFEBER

Director and Co-founder, DataGenero

Ivana Feldfeber is a feminist data activist from Argentina. She is the co-founder and Executive Director of DataGénero, the first Gender Data Observatory in Latin America, working extensively in groundbreaking and ethical AI and digital policy. Ivana and her team's work includes researching AI tools for Criminal Courts working with gender-based violence data in Argentina and Latin America, as well as working with several governments and companies to build inclusive data processes and help decision-makers create better data policies.
