

# DIGITAL TRUST SUMMIT

2024

## SPEAKER BIO

### **NJERI MUTURA**

*Assistant General Counsel, Microsoft*

While serving as Assistant General Counsel for Microsoft Corporation, Njeri has managed strategic projects related to deepening trust in technology, responsible and ethical artificial intelligence (AI), data governance, sustainability and accessibility. With extensive global experience leading high performing teams and providing trusted counsel to C-Suite and leadership teams, she currently leads a diverse team of seasoned legal professionals that provide guidance to the Microsoft enterprise business across the Americas. Under her direction, Njeri's team handles some of the most complex and lucrative transactions in the company and she sits on several leadership teams aimed at driving strategies and executing impactful projects and priorities. She is respected for her subject matter expertise on topics related to technology such as privacy, security, intellectual property, and competition among others. In recent days, Njeri and her team have spent much of their time counseling their business clients and helping customers navigate intricate and emerging issues related to Artificial Intelligence with a large focus on Generative AI. Njeri has practiced law in the United States, Canada, Middle East, and Africa. She is a member of the Ontario Bar and State Bar of California.
