

The background is split into two main sections. The left section features a blue grid with various 3D rectangular blocks in shades of blue, orange, yellow, grey, and pink, some of which are raised or recessed, creating a sense of depth. The right section is a smooth, horizontal gradient transitioning from a deep blue on the left to a warm, golden-brown on the right.

BIOGRAPHIES

JULIAN DIBBELL

PARTNER, CHICAGO | JDIBBELL@MAYERBROWN.COM

Julian Dibbell leverages his deep understanding of contemporary technological developments to help clients develop, buy, and sell technology products and services.

For more than a decade, Julian has advised clients on a range of complex commercial transactions, involving IT outsourcing, digital platform and other hosted service agreements, business process outsourcing, facilities management outsourcing, data center leasing, technology licensing, cloud computing, and privacy and security issues, as well as transition services and other technology agreements in connection with M&A transactions. He has represented companies in many different industries, including financial services, health care, insurance, food and beverage, audit and assurance, publishing and information technology.

Julian is the host of Mayer Brown's [Tech Talks Podcast](#), which provides insight on legal issues relating to technology & IP transactions and touches on relevant and timely topics.

VERONICA GLICK

PARTNER, CHICAGO | VGLICK@MAYERBROWN.COM

Clients turn to Veronica Glick for representation on complex and cutting-edge legal issues regarding national security, cybersecurity, emerging technology, and artificial intelligence (AI). She has particular experience in supporting response to multi-jurisdictional cyber incidents, investigations, and crisis management.

Veronica has extensive experience advising Fortune 500 clients on compliance with cybersecurity requirements and national security authorities, as well as investigations, crisis management and cyber incident response. She advises a broad spectrum of industries including private equity firms and their portfolio companies, financial services, cryptocurrency, defense, transportation, technology, telecommunications, manufacturing, healthcare, biotech and energy. Veronica is one of the leading partners for the Space & Satellite industry group for the Americas.

REGINALD GOEKE

PARTNER, WASHINGTON DC | RGOEKE@MAYERBROWN.COM

Reginald Goeke is a skilled trial lawyer who represents national and multinational corporations in a variety of industries, with an emphasis on the financial services industry. He has tried cases to judgment in jury trials, bench trials and arbitrations. He also represents clients before federal regulatory agencies, including the US Securities and Exchange Commission, the US Department of Justice, HUD, the CFPB, the US Department of Labor, and the International Trade Commission.

Reginald is experienced in representing clients in a range of commercial litigations, including complex contract disputes, ERISA class actions, securities and shareholder derivative actions, trade secret and other intellectual property matters, False Claims Act actions, joint-venture and post-acquisition disputes, constitutional claims, and real estate disputes. In addition, he has represented Boards of Directors and Special Committees in numerous internal corporate investigations, including investigations into securities and ERISA law violations, accounting misstatements, and corporate malfeasance claims. He often represents clients at the intersection of complex regulatory and litigation issues, including securities law violations, fiduciary obligations, and model risk, conduct risk and sales practice risk issues.

ROHITH GEORGE

PARTNER, NORTHERN CALIFORNIA | RGEORGE@MAYERBROWN.COM

Rohith George, co-leader of Mayer Brown's Technology and IP Transactions Group, advises clients on complex, business-critical technology, artificial intelligence, digital infrastructure, and outsourcing transactions. His practice spans enterprise AI deployments, data center, colocation and related infrastructure transactions, cloud and software arrangements, embedded financial services, strategic sourcing and outsourcing arrangements, and other transactions involving emerging technologies. Rohith has particular experience structuring and negotiating large-scale enterprise AI arrangements, including deployments of generative and agentic AI models and services across global and highly regulated businesses. He also advises clients on technology, intellectual property, and integration matters arising in mergers and acquisitions, joint ventures, separations, and other complex corporate transactions.

Rohith represents clients across the technology, financial services, insurance, manufacturing, consumer products, and life sciences industries. His experience on multiple sides of the market—including data center owners, operators, and tenants; financial institutions and fintech companies; and outsourcing providers and their customers—gives him a practical understanding of competing commercial objectives. Clients turn to him to translate legal, technical, operational, and commercial complexity into practical, durable agreements that support long-term business objectives.

TAUSIF KHIANI

VICE PRESIDENT, BUSINESS & TECHNOLOGY
TRANSFORMATION, CAPGEMINI

Tausif Khiani is Vice President, Business & Technology Transformation at Capgemini, where he helps Global 2000 organizations modernize operating models, accelerate digital transformation, and unlock business value through AI, digital engineering, and product-centric ways of working.

With more than 18 years of experience, Tausif has led large-scale transformation, platform modernization, and product engineering initiatives across multiple industries. He works closely with C-suite leaders to design AI-native operating models, accelerate innovation, and translate technology strategy into measurable business outcomes.

A recognized thought leader on AI and enterprise transformation, Tausif has been named a Top 25 Travel & Hospitality Consultant and Leader for three consecutive years and regularly advises organizations on the future of technology, operating models, and business transformation.

ARSEN KOURINIAN

PARTNER, LOS ANGELES | AKOURINIAN@MAYERBROWN.COM

Arsen Kourinian is a regulatory and transactional attorney who advises clients regarding compliance with data privacy, adtech, cybersecurity, and artificial intelligence (AI) laws and navigating complex regulatory issues in mergers and acquisitions, technology transactions, and other corporate deals. He is a thought leader in data privacy, adtech, and AI, having published many articles regarding nuanced issues in these fields and an e-book published on Bloomberg Law entitled, *Implementing A Global Artificial Intelligence Governance Program*.

Arsen excels at translating complicated data privacy, adtech, cybersecurity, and AI regulations into practical contract provisions. He regularly advises deal teams on due diligence, risk allocation, and contractual protections across a wide range of transactions—including mergers and acquisitions, technology transactions, outsourcing arrangements, cloud services, adtech and marketing, data processing, joint ventures, and AI agreements (including agentic AI). His deep understanding of both legal requirements and the operational realities of data-driven businesses allows him to craft contract terms that are commercially reasonable, operationally workable, and legally sound.

Arsen Kourinian advises multinational corporations regarding compliance with domestic and international data privacy and AI laws, including comprehensive privacy and AI laws. He holds the AI governance professional (AIGP), fellow of information privacy (FIP), certified information privacy manager (CIPM), and certified information privacy professional (CIPP) credentials through the International Association of Privacy Professionals (IAPP) for the United States (CIPP/US), Europe (CIPP/E), Canada (CIPP/C), and Asia (CIPP/A).

STEPHEN LILLEY

PARTNER, WASHINGTON DC | SLILLEY@MAYERBROWN.COM

Stephen Lilley is a partner in the Washington DC and Northern California offices of Mayer Brown. A member of the firm's Cybersecurity & Data Privacy, National Security, and Litigation practices, Stephen develops strategies to navigate cutting-edge and interrelated litigation, regulatory, and policy challenges rooted in data and technology. He has been named a "Leading Lawyer" for Cyber Law by the *Legal 500*.

Stephen has significant experience working with clients to identify, evaluate, and manage cybersecurity and data privacy risks; responding to cyber incidents and vulnerability disclosures; and defending businesses in related litigation. Stephen is regularly called upon to advise senior executives and board members on their most challenging cybersecurity risks, to help companies develop governance programs to mitigate those risks, and to lead training exercises to implement and refine those programs. Stephen has particular experience advising on cybersecurity and national security issues relating to the Internet of Things, including vehicles and medical devices, and to critical infrastructure, from financial institutions to operators of industrial systems. Widely recognized for his cybersecurity law and policy experience, Stephen previously served as Chief Counsel to the Senate Judiciary Committee's Subcommittee on Crime and Terrorism, where he focused on cybersecurity issues.

JOE PENNELL

PARTNER, CHICAGO | JPENNELL@MAYERBROWN.COM

Joe Pennell, co-leader of Mayer Brown's Technology and IP Transactions Group, advises clients on complex technology, artificial intelligence (AI), digital infrastructure, SaaS and outsourcing transactions. His work includes agentic AI implementation and integration arrangements, AI-enabled business transformation, data center and infrastructure services, GPU-enabled compute offerings, hyperscale cloud and cloud ERP migrations, and large-scale managed services relationships. Joe helps clients translate legal, technical, operational and commercial complexity into practical deal terms governing performance, data use, intellectual property, service levels, implementation risk, liability, exit rights and long-term flexibility.

Joe is highly ranked by *Chambers USA*, where clients say: "Joe Pennell brings stellar value to our work not only from the legal perspective but also from a strategy standpoint. He brilliantly balances the legal risks with the objectives we're trying to accomplish." Clients also note that Joe is "extraordinarily gifted at communicating complex concepts and relationships in simple but precise and concise terms."

BRAD PETERSON

PARTNER, CHICAGO | BPETERSON@MAYERBROWN.COM

Brad Peterson leads Mayer Brown's Technology Transactions and Outsourcing practices. Brad's law practice focuses on innovation, digital transformation, and operational improvement. His experience includes advising clients on information technology and business process outsourcing (ITO/BPO); contracting for artificial intelligence in products and services; digital services such as platforms and SaaS; data licensing and analytics; supply chain contracting; fintech projects; partnerships and alliances; and ERP and other software licensing, development and integration transactions. He has written and spoken extensively on these topics.

Brad has long been ranked in *Chambers* Band 1 and the *Legal 500* "Hall of Fame."

LEI SHEN

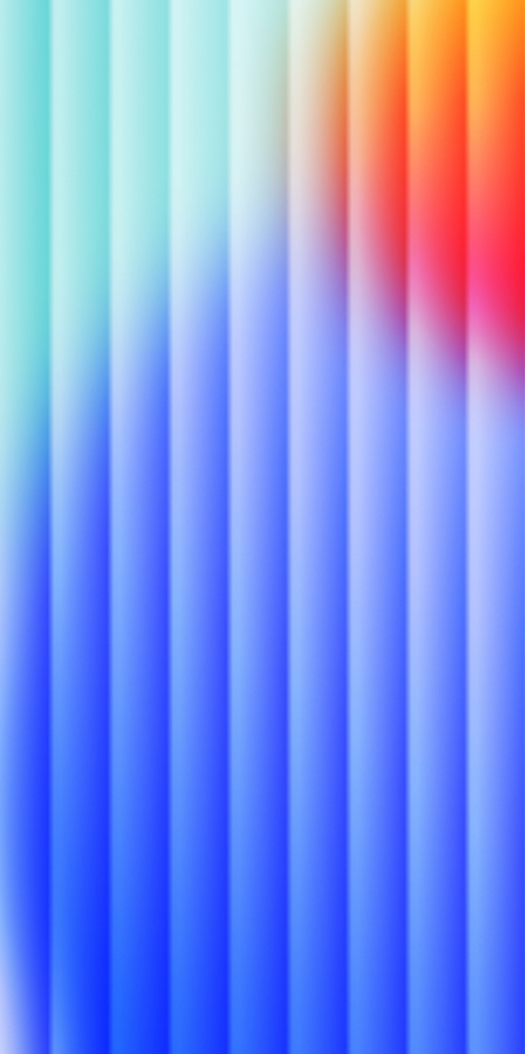

PARTNER, CHICAGO | LSHEN@MAYERBROWN.COM

Lei Shen is a recognized leader in privacy and technology, with a deep track record advising clients across industries and company sizes. From guiding cutting-edge work on artificial intelligence and biometric technologies to building and scaling global privacy compliance programs, she brings unmatched depth and fluency to data protection. Companies—from startups launching their first products to Fortune 100s executing billion-dollar deals—rely on her practical and strategic, solutions-driven approach to manage regulatory risk, enable growth, and unlock business value.

She advises on a wide range of federal, state, and international privacy laws, and her work frequently touches on emerging and transformative technologies, including artificial intelligence, biometrics and facial recognition technologies, neurotechnology, and connected products such as autonomous vehicles and IoT devices.

Lei also counsels clients on the legal and strategic risks associated with data brokers, data scraping, and the monetization and secondary use of data. She helps companies evaluate how data is collected, shared, and commercialized—developing forward-looking compliance strategies that align with business goals while minimizing regulatory and reputational exposure.

She leads privacy diligence in high-stakes transactions, including M&A deals, IPOs, and venture financings—helping clients identify risk, surface opportunities, and move quickly in dynamic deal environments. She also supports clients in responding to regulatory investigations and enforcement actions related to data privacy and security practices.

LISA WILSON

SENIOR MANAGING DIRECTOR, AI & DATA;
AI INFRASTRUCTURE & GOVERNANCE LEAD, ACCENTURE

Lisa Wilson is a Senior Managing Director in AI & Data, leading the AI Infrastructure and Governance capability within the AI & Data Reinvention Engine. She brings more than 25 years of operations experience across SaaS, PaaS, cloud, platforms, infrastructure, security, AI-managed services and AI governance. Lisa has deep expertise in the monetization and commercialization of enterprise assets, as well as in establishing scalable governance models. Her experience spans multiple industries, enabling her to translate advanced technology capabilities into measurable business value at scale.

OLIVER YAROS

PARTNER, LONDON | OYAROS@MAYERBROWN.COM

Oliver Yaros leads our European technology & IP transactions practice, advising clients on technology, IP and outsourcing transactions with a particular focus on artificial intelligence, fintech and digital transformation projects. In addition to this, Oliver acts for clients operating within a broad range of sectors on data protection compliance projects, cybersecurity incidents and related matters including advising on compliance with the GDPR, NIS2 Directive, the Digital Operational Resilience Act (DORA), the Data (Use and Access) Act (DUA) and the Online Safety Act. Oliver is co-leader of Mayer Brown's Global Cyber Incident Response team.

Oliver is a member of the Data Committee of the City of London Solicitors' Company and is a Certified Information Privacy Professional in Europe (CIPP/E) by the International Association of Privacy Professionals (IAPP).
