LOS ANGELES 2024

The Future of Transit & Real Estate in LA

Transportation in Los Angeles is about to massively change. The arrival of driverless cars, completion of the Purple Line by 2024, and growth in ridesharing services, are just some of the ways in which the way we interact with LA will shift. What does this mean for commercial real estate? How do we plan for the future? This session will explore the potential impacts and opportunities to come.

The ICSC educational, networking and mentoring program is specifically designed for real estate professionals who are seeking to develop their careers and build relationships in the shopping center industry. The Next Generation program offers retail real estate professionals the unique opportunity to meet and interact with their peers, share experiences, exchange ideas and advice in an interactive and relaxed environment. Next Generation is also open to seasoned professionals who wish to give back to the industry. Members and nonmembers are welcome.
