Are you looking for a challenging job in a large, highly successful, international law firm?

To further enhance our IS Department in Frankfurt and to ensure the provision of excellent IS service for our 290 users in Germany, we are looking for a

GERMANY IS MANAGER (M/F)

Key responsibilities:

- As part of a global team, coordinate the provision of IS technical and customer services in our German offices
- As part of an EMEA-wide team, supervise IS customer services in all EMEA offices
- Plan and execute projects within Germany and EMEA
- Coordinate local team

Requirements:

- Technical or business management university diploma or professional certification
- 3 years' experience of supervising IT systems and/or help desk, including team management
- 5 years' experience in a professional IS environment delivering a mix of helpdesk support and project work
- Excellent management and organizational skills
- Broad technical knowledge base including networking, telephony systems and application support
- Outstanding written and oral communication skills in English and German

The position also requires regular domestic and occasional international travel.

We offer a challenging job and attractive compensation within an international and professional environment.

If you would like to be part of our continued success, please submit your application with CV and full references to:
