- ▲ Follow development and keep under review

Issues affecting all schemes

Climate change – Pensions Regulator guidance

The Pensions Regulator is consulting on:

- Draft guidance on the new climate change-related governance and reporting requirements that will come into force for larger schemes from 1 October.
- A draft appendix to its monetary penalties policy on the monetary penalties that can be issued for breach of the new governance and reporting requirements.

The consultation closes on 31 August.

Action

Trustees of schemes that will be subject to the new governance and reporting requirements should keep the progress of the consultation under review.

Normal minimum pension age – increase

The government has <u>responded</u> to its consultation on implementation of the increase in normal minimum pension age (NMPA). The response confirms that a protection regime will be put in place under which members of registered pension schemes who had an unqualified right as at 11 February 2021 to take benefits at an age below 57 will retain that right once NMPA increases to 57 from 6 April 2028.

HMRC is now <u>consulting</u> on draft legislation that implements the change in NMPA (including the associated protected pension age regime). The consultation closes on 14 September.

Action

Trustees and administrators should keep the progress of the consultation under review.

"Scheme pays" – reporting and payment deadlines

HMRC is <u>consulting</u> on draft legislation that extends the reporting and payment deadlines for member requests to use the scheme pays mechanism. The changes are designed to enable members whose pension input amount for a previous tax year is retrospectively amended to use the scheme pays facility to pay any resulting annual allowance charge that is over £2,000.

The changes will come into force on 6 April 2022, but will have retrospective effect to 6 April 2016. The consultation closes on 14 September.

Action

Trustees and administrators should keep the progress of the consultation under review.

Collective money purchase schemes – statutory framework

The government is <u>consulting</u> on draft legislation setting out the detail of the authorisation and supervision framework for collective money purchase schemes. The framework is similar to the regime that applies to DC master trusts. Schemes will need to satisfy prescribed criteria for authorisation and comply with a range of ongoing obligations once authorised, including submitting annual supervisory returns and notifying the Pensions Regulator of prescribed "triggering" events. The consultation closes on 31 August.

Action

No action required.

eAdministration - industry guidance

The Pensions Administration Standards Association has published guidance on eAdministration. The guidance aims to support administrators, trustees, pension managers and sponsoring employers to benchmark their own eAdministration arrangements and set objectives and plan for investment in new technology opportunities.

Action

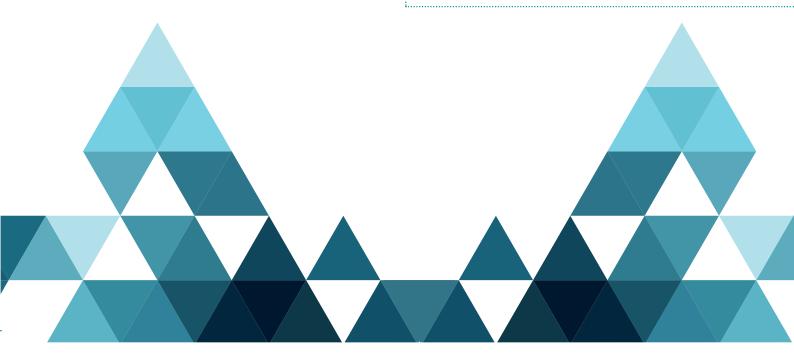

Trustees, administrators and employers may find the guidance helpful when considering what improvements they may want or need to make to their scheme's online capabilities and automated processes, particularly in light of the introduction of pensions dashboards.

Provision of information – failure to include key information

The Pensions Ombudsman has decided that a scheme's failure to include key information in a leaver's certificate, such as the fact that the member's pension increases, and therefore his projected benefits, were not guaranteed, amounted to provision of misinformation.

However, the Ombudsman concluded that the member had not irreversibly relied on that misinformation. He had therefore suffered a loss of expectation rather than a financial loss. The Ombudsman ordered the scheme to pay the member £1,000 for the serious distress and inconvenience caused.

No action required, but schemes should ensure that member communications include all key information that is relevant to the decisions that members may make in reliance on those communications.

Issues affecting DB schemes

GMP conversion - industry guidance

The Pensions Administration Standards Association has published guidance on guaranteed minimum pension (GMP) conversion. The guidance provides examples of how GMP conversion is being used by early adopters and explains the issues they faced, how they addressed them, and how simplification can be achieved without, in many cases, a significant impact on members.

Action

Trustees and employers may find the guidance helpful when considering whether GMP conversion is an option for their scheme.

PPF compensation cap – lawfulness

The Court of Appeal has held that:

- The statutory cap on the compensation paid by the Pension Protection Fund (PPF) amounts to unlawful age discrimination and must be disapplied.
- In adjusting compensation following a 2018 court ruling that members must receive at least 50% of their scheme benefit entitlement, the PPF is entitled to use a one-off, rather than periodic, value test.
- The PPF's approach to the calculation of compensation payable to survivors is not wrong.

Action

No action required.

Issues affecting DC schemes

Pensions guidance - trustee obligations

The government is <u>consulting</u> on draft legislation requiring trustees to ensure that members who apply to access, or to transfer for the purposes of accessing, their DC or cash balance benefits have received or opted out of receiving appropriate pensions guidance from Pension Wise.

Trustees will be required to explain the nature and purpose of Pension Wise guidance and facilitate the booking of a Pension Wise appointment for the member as part of the application process. Schemes will need to ensure that they have received confirmation of attendance at a Pension Wise appointment, or an opt-out, before proceeding with the application. The requirements will apply in respect of all members and other beneficiaries aged 50+ other than those who meet certain criteria, such as those transferring to a DB scheme.

The consultation closes on 3 September and the legislation is expected to come into force on 6 April 2022.

Action

Trustees should keep the progress of the consultation under review.

Dates to note over the next 12 months

Final deadline for schemes to include implementation statement in scheme annual report and publish it on a publicly available website

1 October 2021

- Climate change governance and reporting requirements come into force for larger schemes
- New net return reporting requirements come into force for DC schemes
- Changes to the DC default fund charge cap to allow smoothing of performance fees come into force
- Requirement for DC schemes to produce a SIP for default funds with a "promise" comes into force
- Requirement for the chair's DC governance statement to state the level of costs and charges for historically selected funds that are no longer available for selection comes into force

31 December 2021

New value for members assessment and reporting requirements for DC schemes with less than £100m in assets come into force

31 January 2022

Deadline for schemes to send annual event report to HMRC (2020/21 tax year)

31 March 2022

Deadline for submission of scheme returns

6 April 2022

- New annual benefit statement requirements for DC-only automatic enrolment schemes expected to come into force
- Ban on flat fees being charged on DC default fund pots of £100 or less expected to come into force
- Stronger trustee guidance obligations for DC and cash balance schemes expected to come into force

Key:

Important dates to note

Mayer Brown is a distinctively global law firm, uniquely positioned to advise the world's leading companies and financial institutions on their most complex deals and disputes. With extensive reach across four continents, we are the only integrated law firm in the world with approximately 200 lawyers in each of the world's three largest financial centers—New York, London and Hong Kong—the backbone of the global economy. We have deep experience in high-stakes litigation and complex transactions across industry sectors, including our signature strength, the global financial services industry. Our diverse teams of lawyers are recognized by our clients as strategic partners with deep commercial instincts and a commitment to creatively anticipating their needs and delivering excellence in everything we do. Our "one-firm" culture—seamless and integrated across all practices and regions—ensures that our clients receive the best of our knowledge and experience.
