Our value proposition

Partner-led Approach

We provide a **partner-led service**, assigning a lead partner to direct and manage each assignment **from inception to completion**, giving our clients the comfort and security of knowing that this individual will keep them informed and be able to answer any of their questions about a transaction or dispute at every stage. To facilitate work that often takes place under tight deadlines, our lawyers ensure:

- // that there is proper analysis of the transaction or dispute at its outset;
- // early identification of potential problems; and
- // rigorous project planning and timelines.

We will make sure our approach is flexible enough to allow for and to deal with last-minute issues, and we have a proven ability to field additional lawyers and resources from our worldwide offices at short notice to meet our clients' needs.

Capacity Building

We are firmly committed to Africa and over the many years that we have worked within the continent, we have provided the opportunity for **training and the transfer of legal knowledge to local African lawyers and consultants** involved in the projects we have worked on. We always structure our work to include suitable knowledge transfer to our clients. We consider this to be an important differentiator in the work we do.

We are active participants in the **ILFA flagship secondment programme** which provides African lawyers the opportunity to work at Mayer Brown offices. We also support training through the **AILA Scheme**, providing knowledge transfer to African lawyers in relation to investment arbitration. In addition, we have also designed internships and training programmes to African clients to support transfer of knowledge and know-how as intrinsic to assignments that we undertake.

Correspondent Law Firms

We have an **established and evolving network** of local counsel that we have relationships with. We will engage the local counsel that has the “best fit” to work on each assignment based on their strength and experience related to the matter. Our unbiased approach allows us **to collaborate with firms with quality benchmarks that are similar to ours** so that there is no difference in the level of service provided to our clients.
